THE IDEA ...

This is a follow up project of the project "The right moment-sometimes that's now" implemented by Loesje Berlin in 2015-2016. This project aims to raise awareness on the importance of human rights education and anti-discrimination through creativity and to equip youth workers and educators with different creative tools.

In this training course, the participants will exchange experiences and explore interesting tools. Also they will create a strategy to restart and spread the campaign "The right moment" in a creative way.
